

Fact:

ACO rules propose 65 quality measures that ACOs must meet in order to share in savings with the Federal Government and envision two separate tracks with multiple mixes of risk and savings.

Private-sector ACOs already are struggling to navigate the many business decisions needing in setting up these entities while the HHS regulations governing ACOs create new challenges for Medicare providers.

ACO Assistance & Development of Provider Aligned Solutions

CHC can assist Provider Organizations with solutions and products in entering the ACO Movement.

Strategic Analysis & Demographics

Assist ACOs with Ensuring Network Adequacy
