

Fact:

“Recent changes to reimbursement and quality measures make internal transformation fundamental to a hospital’s survival.”

CHC Coding & Documentation

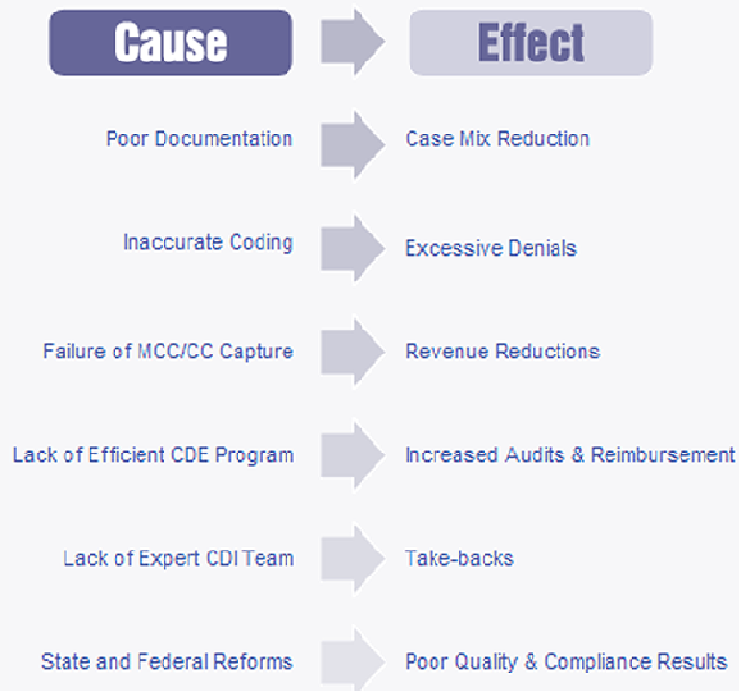

Major Changes To The Healthcare System Are Underway

Changes due to healthcare reform require a transformation of how hospitals and providers review EMRs and encounters.

Hospital Executives must implement and sustain improvements to clinical documentation in response to:

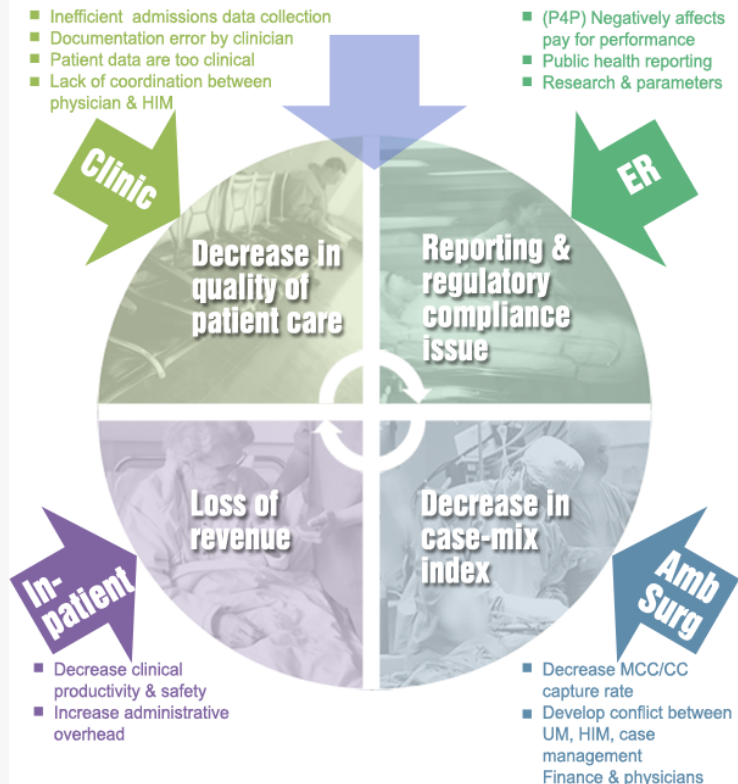

- Medicare Severity Diagnosis Related Groups
- RAC
- Present-on-Admission and Hospital Acquired Conditions
- ICD-10

Result of Changes Can Be Devastating To A Hospital

Improper Data Collection & Error in Documentation Process

The Creative Health Concepts Solution

Qualified Staff

- On-site Certified Coding Team
- **Physician Leadership**
- Virtual CDI Experts Upon Demand

Evaluation & Tracking

- Concurrent Review of Physician Documentation
- Analyze and Trend Performance
- Create Physician Report Cards

Education & Training

- Approach and Advise Physicians
- Present at Organized Physician Meetings (e.g. Grand Rounds)
- Develop Standard Documentation Templates

Integration

- Align Case Management, UM, HIM and Quality Management
- Establish Internal Regulatory Documentation Task Force
- Coordinate Steering Committee Ensuring Appropriate Communication and Continual Improvement
